OF

ARTS AND SCIENCES.

VOL. III.

(NEW SERIES.)

CONTENTS.

	Page.
COPPER:	
Of the ores of copper	2
Of the assay and analysis of copper ores	3
Of the reduction or smelting of copper ores	23
Of the refining of black copper	34
Properties of pure copper	51
Preparation of sulphate of copper, or blue vitriol,	52
Verdigris	55
Crystalized Verdigris, or acetite of copper	64
Radical Vinegar	67
Scheele's & Brunswick Green—Verditer	70
Hatchett's from brown prussiat of copper	71
Alloys of Copper, viz.	73
Brass: Orichalchum	73
Prince's metal, Pinchbeck, &c.	93
Mesure's metal	94
Bronze. Bell-metal	98
Speculum metal	100, 132
Separation of copper from Bell-metal	101
Tutenag. Peting	106, 107
Bronze	107
Bronzing	108
Packfong, Ancient weapons	109
Hardening copper with phosphorus	109
Ditto and whitening copper with arsenic	109, 110
Plating copper with silver	111
Silvering copper various ways	112
Platinating Copper	113
Tinning Copper	114
Papers on ditto	114, 125
To separate copper from silver. M. Goetling's method	125
——————————— Mr. Keir's method	127
——————————— Mr. Thompson's method	129
On rolling Copperplates	127
Copper precipitated by tin	142
Brazing	143
Glazed Copper and Iron culinary vessels (Hicklin's)	144

Starch manufacture 145
Manures 148
Bricks: second memoir 153
Ohio Falls, with a plate. 162
Bleaching, with a plate 164
Merino Ram, with a plate 164
Hydrostatical engine, with a plate 166
Ducket's plough, with a plate 170
Political economy 172
Notices, viz. Decomposition of Azot . . . 174
To Correspondents 175
New Publications 175
Iode on violaceous gas 175
LEAD:
Assay and Analysis of the ores 177
Smelting and reduction of Lead ores . . . 186
Refining Lead for Silver 212, 243
Properties of Metalic Lead 217
Processes for manufacturing White Lead . . 219
Manufacture of Red Lead 236
Acetite (or Sugar) of Lead 254
Patent Mineral Yellow 256
Sheet Lead Boxes 257
Manufacture of Shot 258
To ascertain the quantity of Whiting in White Lead 263
Chromat of Lead 264, 305
Naples Yellow 265
Mortar (Editor) 266
Water Cement (Editor) 272
Perkins on Water Mills (Plate) 273
Graff's Steam Engine Boiler (Plate) . . . 275
Statistics (Editor) 276
Latrobe on Roads 284
Deliquescent and efflorescent Salts 297
On Manufactures 298
Cookery 309
Notices 328
LEAD: 339
Shot 339
Sugar of Lead 343
TIN: 345
Ores of Tin 345
Weight of mixtures (alloys) of tin and lead . . 365
